

Crossrail Project Bulletin 8

April 2007

Revised Proposals

Crossrail is a major new railway proposal that would link Maidenhead and Heathrow in the west with Shenfield and Abbey Wood in the east through new tunnels under central London. It would bring major reductions in congestion and journey times for London and the South-East.

In February 2005 the Secretary of State for Transport introduced a hybrid Bill to the House of Commons to authorise the Crossrail project. The House approved the principle of the Crossrail Bill at a Second Reading in July 2005.

Since January 2006 a Select Committee of the House of Commons has been considering petitions (formal objections) received against the Crossrail Bill and previous amendments made to it.

Recently, the Secretary of State for Transport has announced he will bring forward amendments to alter the alignment of the tunnels through Woolwich, and to authorise a station at Woolwich in response to a request from the Select Committee.

The proposed Crossrail station at Woolwich will be positioned in the area of land between Plumstead Road, the Royal Carriage Factory and the IO Centre. Changes are also being made to the tunnel alignment between North Woolwich and Plumstead; as well as the position of the portal at Plumstead.

We are now holding an information round to explain these changes and keep you up to date on the project. A public information centre will be held at START International Centre, Guntery House, 9 Guntery Terrace, Royal Arsenal, London SE18 on Friday April 20 and Saturday April 21, 2007.

Crossrail staff will be on hand to explain the display, offer you our latest publications and answer your questions. The Crossrail website at www.crossrail.co.uk carries useful information, including route diagrams. You can also ask for the Display Panels and Information Papers from April 20.
